# SEARCH

## How will Search help?

It makes doing your research easy  
– from looking up possible destinations to others' travel experiences, and more.

## What can Search offer?

Quite *literally* millions of information.  
Thinks of it as your personal trip advisor (no pun intended).

# PREPARE

## Learning from others

From how to pack to food reviews, to finding out the best sightseeing spots, YouTube is your next best bet for a near-authentic travel 'experience' before flying off.

## PREPARE

### How much do I pack?

Search how much baggage allowance you're given by your chosen airline.

### What should I pack?

Seek inspiration on how others have done it on YouTube.

### How do I pack?

Search how to 'Marie Kondo' your suitcase.

A close-up photograph of a diverse group of people gathered around a smartphone. A woman with dark hair is on the left, looking down at the phone. A man with a beard is in the center, also looking at the screen. Another person is partially visible on the right. The background is slightly blurred, suggesting an indoor setting like a cafe or office. The image is overlaid with a large white rectangular box containing text. There are also light blue cloud-like shapes in the bottom left and bottom right corners of the image.
